

A group of colorful wooden human figures, including blue, yellow, red, green, and brown, are standing in a line on a light-colored surface. The figures are slightly out of focus in the background, creating a sense of depth. The text "Family Peer Support" is overlaid in the center of the image in a white, sans-serif font.

Family Peer Support

Defining Family Peer Support

Family peer support is a term that is used for both:

- a) Supporting the families that surround an individual working with a PSS (e.g., the spouse of a person in recovery from a SUD) – but the individual receiving the peer support is still the primarily PSS client
- b) Parent-to-parent peer support, in which a parent struggling with a minor child who has an MH or SA concern receives support from another parent (Parent Peer Support Specialist).

Certified Peer Recovery Support Specialists with lived experience!
